

The Wavy Lines theme

Try it with the [arctic] option!

Stian Lybech

Introduction

About the theme

Introduction

- ▶ The theme is a cleanup, simplification and prettyfication of the Erebus theme
- ▶ It has an [arctic] option to turn on dark-mode
- ▶ The theme generates a special *section* separator slide, when you call section.
- ▶ And it also automatically sets the title of the current section as subtitle of every slide, unless you specify a subtitle.

The background of the slide is a dark blue gradient, resembling a night sky with numerous small white stars. Overlaid on this are several thin, green, wavy lines that create a sense of motion and depth. These lines are most prominent on the left and right sides, curving upwards and then downwards. In the center of the slide, the word "Questions?" is written in a large, white, serif font.

Questions?
